

Welcome to Creative Support!

As you are probably aware, organisations are having to take extra precautionary measures for COVID-19. Here at Creative Support, **we are practicing social distancing meaning we will be keeping 2 metres apart from one another and from you as a visitor.**

This also means we will not be engaging in any bodily contact such as hand shaking.

We are asking for you as our visitor to also participate in this practice and to **wash your hands upon arrival and before you leave** in accordance with government advice.

We hope you understand why we are implementing such procedures and still find us as helpful and friendly as ever!
