This scheme was set up in December 2002 and consists of two houses and a flat in the Great Harwood area, each for one person. These are Assured Shorthold Tenancies owned by Creative Support. The tenancies are renewed on a monthly basis and can be a tenancy for life if the tenant so wishes.

This project opened in August 2001, and is a project for adults with mental health needs. Situated on Blackburn Road, in Accrington town centre.

The project consists of seven self-contained flats, Tenancies are renewed on a six monthly basis but tenants are able to stay for life if they so wish. We work with tenants on individual budgets to identify their needs and is focused on promoting independent living and developing service users' life skills and coping mechanisms, whilst promoting social inclusion.

The project is staffed according to the tenants individual needs, tenants can also contact Creative Support's 24-hour on-call service when staff are not available.
