

# Manchester Mental Health Services

Referral Booklet

Update: Summer 2020

Creative Support is a not-for-profit provider of personalised services—supporting over 6,000 people to enjoy their lives and reach their full potential.

We have worked in Manchester since 1991 and we currently support over 1,200 adults with mental health needs in community support services and supported housing.

# Introduction to Manchester Services

Creative Support is a not for profit provider of personalised services – supporting people to enjoy their lives and reach their full potential.

The aim of our service is to provide high quality, personalised housing related support for individuals with a range of needs. Together with our tenants, we work in partnership with other professionals and health care teams to identify all needs, setting realistic and achievable goals for those we support.

- Over 25 years experience of mental health and recovery in Manchester
- 24 hour duty team service with local on call for Manchester 365 days a year
- Established and developed user recovery tool
- One stop referral process with admin support
- Geographical spread of services
- Strategically engaged with MCC about the future and quality of services for people with mental health needs

We work in accordance with the recovery approach and our services have a moveon pathway to reflect this; from 24 hour services through to supporting people in their own tenancies. When we receive a new referral, we ensure that each individual is aware of the expectations of personal development and outcomes. Where appropriate, we will also implement a move-on plan within the first six months of an individual commencing with the service.

We have a wide range of services throughout Manchester, all with individual eligibility criteria – please see the specific service page for further information on eligibility.
