JOB DESCRIPTION –QUALITY ASSURANCE SYSTEM OFFICER

Head Office, Stockport, Greater Manchester

Job Title: Quality Assurance Systems Officer

Department: Quality Department

Hours: 37.5 hours a week

Responsible to: Head of Quality and Service Director

Location: Your main base would be at our Head office in Stockport.

Scope of the role

Creative Support has an established national quality department which undertakes aspects of quality assurance work, compliance and good practice work nationally across our operational services. This includes a robust audit programme, a proactive audit schedule which works proactively ahead of external inspections from local authority and the CQC. The quality department also oversees the social care governance structure and analyses quality data to ensure prevention strategies are used and trends identified and responded to. The department ensures policies, procedures and quality systems are in place.

We have 90 locations which fall under CQC registration and compliance with these national standards is very important, as is supporting our Registered Managers with their responsibilities nationally.

Summary of Role

The **Quality Assurance Systems Officer** role will contribute to our audit and social care governance processes. Working within the highly experienced and established Quality Team, the role includes carrying out desktop audits and completing compliance and governance checks of Creative Support's quality systems Quality Connect (access database), Seatable and contributing to overall quality improvement.

The post holder will also be part of a team which responds to specific work requests which may include assisting services with quality improvement work. They will write comprehensive and detailed reports informing of compliance and areas of quality improvement. The role will also ensure we carry a central information folder on each registration of necessary digital form documentation which is requested as part of a compliance visit or inspection.

The role will support the quality department in updating and overseeing central logs on key quality areas such as risk of choking, bedrails and PEG use. Quality officers will oversee the detail and quality of this but their role will ensure we adhere to deadlines and update commitments.

This role is to provide specialist remote quality support to our operational services. This can be done virtually but will also be on site when required. The outcomes of this role will significantly contribute to our oversight and governance of compliance standards and will inform areas of risk.
